Entrix is a Munich-based start-up, our intelligence enables the energy transition and unlocks the full value of flexible energy assets such as large batteries. And therefore, we need you: A forward-thinking and experienced Senior Tech Recruiter who will contribute to the growth of Entrix by attracting, creating an excellent candidate experience ...

Enpal and Entrix have joined forces under the joint venture Flexa to introduce a next-generation Virtual Power Plant (VPP) for residential households. This pioneering initiative connects solar panels, home battery storage systems, electric vehicles, and heat pumps into an intelligent, decentralized energy network. By optimizing energy use and market participation, the VPP ...

The technical storage or access is strictly necessary for the legitimate purpose of enabling the use of a specific service explicitly requested by the subscriber or user, or for the sole purpose of carrying out the transmission of a communication over an electronic communications network.

Entrix | 6,659 followers on LinkedIn. Managing every megawatt-hour intelligently. | With our AI-powered fully automated optimization and trading platform for flexible energy assets from grid-scale batteries to virtual power plants, we ensure that energy is stored when it is abundant and released into the grid when it is needed. At the same time, by actively trading electricity, we ...

NUR-SULTAN (TCA) -- In 2020, 25 renewable energy facilities with a total capacity of 583 MW were commissioned in Kazakhstan, including 10 wind, one hydro and 12 solar power plants. This was said at the government meeting on February 9 chaired by Prime Minister Askar Mamin,primeminister reported. The generation of electricity by renewable ...

Entrix mission is to enable the most effective use of green energy and to ensure the reliability of the future energy system. Headquartered in Munich, Entrix was founded by Steffen Sch&#252;lzchen in 2021. Entrix provides state-of-the-art technology and services to both asset owners and potential investors across the globe.

? The renewable energy investor Aquila Clean Energy EMEA has started construction of a large-scale battery storage facility in Wetzten, Lower Saxony. The storage facility, which will have an output of 54 MW and a capacity of 112 MWh, will be operated by the software specialist Entrix from Munich, the companies announced. Aquila already announced in August at the start of ...

Being a part of the Entrix Team means working cross-functionally in its true sense. To provide an all-round solution to our customers, we ensure to bring all functions together under value-driven domains where they can shape all components of the product together.
