What is Ihat news & events?

Renewable Energy News That Matters. iHAT News And Events. Serving as green solutions innovation leaders who are accelerating the green energy systems transition and helping to drive sustainable for growth for businesses and economies in equitable ways.

What makes Ihat unique?

People are iHAT's most valuable asset and our focus on innovation adds value to both iHAT internal and community human resources. Green Hydrogen Energy storage for providing on-demand clean energy with no waste. Green Hydrogen storage is beyond lithium, providing long-duration storage, operational flexibility and efficiency in power delivery.

Why should you choose Ihat?

The transition to incorporate sustainability for Governments, Businesses & Communities presents countless opportunities and iHAT is here and ready to help create and execute optimal solutions. Our mission is to drive the shift to a decarbonized society, enabling stakeholders to access renewable energy for sustainable living.

Vision

Founder and President Of IHAT TECHNOLOGIES INC. &#183; An entrepreneur that has excelled in the following fields, having built, a Record Label, a Film Company, a Management Company and a Renewable Energies & Commodities Company. & It;br& gt; .iHAT-Technologies & It;br& gt;Instagram @iHAT\_Technologies &#183; Experience: IHAT TECHNOLOGIES INC. &#183; ...

iHAT is at the forefront of designing, testing and deploying innovative solutions that are giving a boost to the world's energy transition process including Big Data and digital technologies to increase wind farm, solar panel and green ...

In 2016, the IMO announced that the effective date for the reduction of marine fuel sulphur will be 2022.. Under the new global cap, ships will have to use marine fuels with a sulphur content of no more than 0.5%S against the current limit of ...
