What is Poland's energy policy until 2040?

For this reason, on March 29, 2022, the Council of Ministers adopted the principles for the update of the "Poland's Energy Policy until 2040" (PEP2040), which are aimed at strengthening energy security and independence in the context of the new situation.

What is Poland's energy strategy?

It is the first strategic document regarding Polish energy approved in 12 years. It presents solutions to meet EU climate and energy goals such as the construction of offshore wind capacity or the commissioning of the first nuclear power plant in the country planned for 2033.

What is Poland's national climate and energy plan?

Poland's updated draft of National Climate and Energy Plan submitted in October 2024 notably includes a 50,4% greenhouse gases reduction target in 2030, a 32,6% share of RES in gross final energy consumption by 2030, and a reduction to 58.5 Mtoe in final energy consumption in 2030.
