

# Lebanon green energy solar solutions

Our Solutions . ENERGY MIX. SUN WIND WATER. ... In Lebanon, green energy production is now four to five times cheaper than electricity produced by our current operated heavy-fuel power plants and two to three times less than gas powered plants (CCGT). ... Recent solar tenders by the Ministry of Energy awarded small 15 MW plants at 5.7 cent/kWh ...

To reach its 50% green energy target by 2030, Lebanon must build around 6 GW of wind and solar plants. By exploiting Lebanon's potential for clean pumped hydro-storage, integrating battery storage or selling our excess electricity to Syria, Lebanon could reach such objectives faster and integrate more renewables into its energy sourcing.
