Does SeedStudio separately sell the "Waterproof Silicone Plug" that blocks the N-type hole for the SenseCAP Outdoor Enclosure? Alternatively, does anyone know the part number of this component? I'm

Liberia sensecap outdoor enclosure

using this case for a different purpose and need to block off the third N-type hole.

Product Description This bundle includes all necessary parts to take your SenseCAP M1 (NOT INCLUDED IN THE KIT) outdoor in a secure and durable casing, plus a 5.8dBi high grade LoRa antenna . With the LoRa antenna included you are ready to deploy your miner outdoor in no time! **Product Features** PoE injector, power cord

Ffs man, buy a NEMA rated enclosure on Amazon with a cable gland assortment. Drill the holes in the bottom of the enclosure for the cable glands and run the cables in through there. Those holes in the side will allow condensation to escape but a strong rain/wind will blow moisture in and sit on the bottom of that lid.

Seed Studio SenseCAP Outdoor Enclosure meets the needs for outdoor gateway applications. The enclosure is a decent size that can allocate most of the mainstream hotspots. These hotspots include BobCat miner 300, ...

SenseCAP Outdoor Enclosure has a decent size that is able to allocate most of the mainstream hotspots, such as BobCat miner 300, RAK hotspot, Cal-Chip, Nebra, Helium hotspot, etc. With multiple types of extended interfaces provided on the bottom, including the ethernet cable gland, PG9 power cable connector, three N-type female fiberglass antenna connectors, and the ...
