

# Lithos energy Chile

What makes lithos a great battery company?

Founded by highly regarded alumni from MIT and Tesla, Lithos is proud of its unwavering commitment to engineering excellence. The company's world-class team is dedicated to pioneering battery innovation and providing exceptional customer service.

What makes lithos unique?

In nearly a decade of lithium-ion battery technology innovation, Lithos has established itself as the global leader in high performance battery systems engineered for demanding use. Our proprietary battery technology innovation gives clients step-leaping customization that can take products to market faster with ultimate modular compatibility.

Where are lithos batteries made?

Made in California. Built Purpose Tough. Exceptional Battery Technology from World-Class Engineers. In nearly a decade of lithium-ion battery technology innovation, Lithos has established itself as the global leader in high performance battery systems engineered for demanding use.

Who uses lithos technology?

Our innovative technology enables industry-leading power and energy density- with hallmark Lithos application-specific dependability and safety. Industries served include automotive, e-mobility, marine, off-highway, energy storage, defense, construction, mining, and agriculture.
