What is optergy BMS?

Accessible securely via any network-connected device, our system ensures you're always in control, wherever you are. Optergy's BMS solution provides a suite of advanced tools to streamline information access: Create bespoke user profiles with varying levels of access--from full system control to view-only modes.

Why should you choose optergy BMS through leading edge automation?

Tailor experiences for different team members or restrict access to energy management only, focusing on individual energy consumption metrics. By adopting the Optergy BMS through Leading Edge Automation, you're choosing a smart, secure, and efficient way to manage your building's ecosystem. Keep up to date with the latest automation news.

What is optergy Malaysia?

Optergy Malaysia is moving. For 'BMS/EMS system go to Leading Edge Automation, and for Smart Building Solutions go to Operational Intelligence Optergy Enterprise software provides a web-based, real time scalable solution to improve control and reporting within buildings.

Does optergy integrate with BACnet & Modbus protocols?

Optergy's software integrates with BACnet and Modbus protocols, the industry's standard for HVAC equipment. Users can stay connected and have full control over the building assets. Optergy's built-in tools and applications enables the following smart solutions: With effective monitoring also comes efficient controls.

Optergy Building Management System (BMS), is software that allows users to monitor and control equipment within a building. With an efficient BMS, you can easily achieve a high level of ...

Optergy Enterprise was utilised by the system integrator to improve the efficiency of the building's performance. The Optergy BMS system along with complimentary controls and sensors helped drastically cut net energy use which helped the building achieve beyond their 5 star requirement under the contract to have a rating of 5.5 star NABERS ...

Overlooking the Brisbane River, One One One Eagle Street is an iconic office building that harbours success and excellence. With its innovation and inspirational architecture and its 6 star NABERS and Green Star rating, it is a leader in building performance and design and paves the way for the future of the industry.

Building Management Systems (BMS) are essential for keeping your facility running comfortably and efficiently. They do so by creating a unified coordination of operations with a centralised interface. This gives you the power to monitor and regulate mechanical and electrical operations like HVAC, security and more for the health and safety of your occupants.
