The pvpro software does not show any estimates of pv production and the main screen on the solark does not know either. I do have an rs485 card in the sunny boy and was curious if it is possible to get this data reported in pvpro (i'm a newbie on this software). Otherwise it looks like solarassistant will be needed to grab all the data.

Infinity Innovations Ltd. are established green energy suppliers, distributing many of the UK's best solar energy products. We have been involved in a range of solar energy products and eco-friendly heating systems, including Solar Water Heaters, Heat Pumps, Solar Panels and Solar PV products, Thermodynamic hot water systems and Battery Storage for many years.
