

Merlin energy Montserrat

Who is Merlin energy resources?

Merlin Energy Resources is an Employee-Owned geoscience and data management consultancy. The company started with a focus on oil and gas but now has a much broader reach. In addition to supporting our traditional market, we use our geoscience and geochemistry skills to help clients meet their net-zero commitments.

What services does Merlin Geoscience offer?

Our data division, Merlin Datawise, can offer these services to other business. We want to ensure that you get maximum value from your data and can make informed business decisions as a result. Merlin Geoscience can support your workflows from exploration to production.

How much does electricity cost in Montserrat?

Montserrat's utility rates start at \$0.53 per kilowatt-hour (kWh) for residential customers, which is above the Caribbean regional average of \$0.33/kWh. Like many island nations, Montserrat is almost entirely dependent on imported fossil fuels, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

Does Merlin work with Belltree?

Merlin has a long standing alliance with Belltree Ltd. This alliance allows us to deliver projects that require Engineering workflows. Belltree provide industry leading Reservoir Engineering and Petroleum Engineering consultancy. Belltree's complementary services include: Benchmarking studies, employing bMark™. Reservoir Engineering.

Ben Burton, Summer Intern. Hi, I'm Ben and this summer I was given the opportunity to complete a summer internship with the team at Merlin Energy Resources. As a geologist going into my third year at the University of Bristol, my time at Merlin has allowed me to fully appreciate and understand how the theory I am learning at university applies to industry.
