Who is responsible for the energy security activity in Moldova?

The four-year Moldova Energy Security Activity is implemented by Tetra Tech ES, Inc., with local and international subconsultants.

Does Moldova have a good energy sector?

Moldova is also on the right path to developing a sound institutional structure in the energy sector, informed by better statistical data. The National Bureau of Statistics (NBS) is commended for its efforts to improve energy data collection and reporting.

What is USAID's Moldova energy security activity?

Through MESA, USAID will invest \$17 million over the next four years to help strengthen and diversify Moldova's energy sector, building long-term energy security that supports Moldova's sovereignty. The Moldova Energy Security Activity's key objectives include: Improve physical and market integration of Moldova's energy system with Europe.

How can Moldova's energy system be integrated with Europe?

Improve physical and market integration of Moldova's energy system with Europe. Connecting Moldova's electricity system to the European grid is an important first step that will help create an open electricity market with neighboring countries and support fair and competitive procurement of cleaner energy.

What drives the energy policy agenda of the Republic of Moldova (Moldova)?

The energy policy agenda of the Republic of Moldova (Moldova) is driven by several interrelated factors. The first key driver is high dependence on imports from limited sources and subsequent energy security considerations.

What is Moldova's long-term goal in the electricity sector?

In the electricity sector, Moldova's long-term objective was to fully interconnect with the European Network of Transmission System Operators for Electricity (ENTSO-E). This was achieved significantly earlier than planned, due to Russia's invasion of Ukraine in late February 2022.
