

Moveit solar container Greece

What is MOVEit's solar container?

MOVEit's solar container is a solution for mobile solar energy. MOVEit Polish enterprise MOVEit Power has developed a novel and groundbreaking solution to the many situations in which quick and easy power is needed but the facility for a power station or connection to mains power is not possible.

Where can a mobile solar container be shipped?

You can easily ship it to any location in the world. In order to improve container mobility, we recommend additional container lifting jacks. Mobile Solar Containers open up new possibilities in areas with limited access to electricity. Easy transport combined with ease of use makes it a perfect solution to satisfy energy needs in remote areas.

What is a self-unloading mobile solar container?

Self-unloading mobile Solar Container. Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work.

What is a mobile solar container?

Mobile Solar Container is also a great storage option for PV panels while not in use. Automatic hydraulic systems. It wouldn't be possible to create such a convenient system without the highest quality hydraulics. The entire system is designed by our engineers with long-standing experience in special mobile constructions.

Why should you choose a 20' mobile solar container?

A huge solar area in a 20' Mobile Solar Container gives you really significant power output. Despite its size, it is easy to fold and transport to any location with a level piece of ground. Adjustable angle of solar panels. In order to improve PV efficiency, the frame is designed in a way to enable an adjustable angle.

Why should you choose a mobile solar container?

Thanks to its robust hydraulics containers are always ready to unfold the panels within minutes. Convenient levers make it even easier to operate for only one person. Mobile Solar Container is also a great storage option for PV panels while not in use. Automatic hydraulic systems.

A standard or high rise B-grade 20ft (6m) or 40ft (12m) container can be converted and deployed in a reasonably short period of time. For larger multi-megawatt plants, a multi-container design approach has also been configured ...

The MoveIt® solar project is a beautiful display of ingenuity and sensibility. An array built with 80kW of caterpillar thin-film solar modules, these modules capture the sun and create electricity as direct current (DC). This powerful energy source is then routed through SMA inverters which convert the electricity to alternating current (AC).

Solar Container is an innovative solution to easily transport solar farms without the need to assemble on site. Main features:- automated unfolding- sun trac...
