

New Caledonia gwl battery

Why has Tesla signed a new supply agreement with New Caledonia?

Tesla has signed a new supply agreement in order to secure a large amount of nickel from New Caledonia for battery production. Over the last year, Tesla CEO Elon Musk has been pushing for nickel producers to boost production as he expects the resource could become a bottleneck for battery production.

Why did Tesla buy nickel from New Caledonia?

Tesla has agreed to buy nickel from a mine in New Caledonia in a move to secure its supply of the battery metal, which its chief executive Elon Musk has called the group's "biggest concern."

Does New Caledonia have a nickel mine?

New Caledonia is a small French territory in the southwest Pacific Ocean, and it is believed to own as much as 25% of the world's nickel. It is home to the Goro mine owned and operated by mining giant Vale. They took over the mine in 2007 in a multibillion-dollar buyout in hopes to ramp up production to 40,000 tonnes of nickel per year.

Why did New Caledonia get involved?

It's likely the reason why the automaker decided to get involved, as one of the world's biggest and most controversial nickel mines is changing hands. New Caledonia is a small French territory in the southwest Pacific Ocean, and it is believed to own as much as 25% of the world's nickel.

Is New Caledonia a nickel producer?

New Caledonia is one of the largest nickel producers, but in December protests by groups seeking independence from France for the island delayed the sale of the loss-making Goro mine and refinery by Brazilian miner Vale to a consortium called Prony Resources.

The French overseas territory of New Caledonia has hailed the switch-on of a 16MWp solar farm, with battery energy storage to be later attached, and another standalone 5MWh battery project,...
