Guardian Nexa lower-carbon glass applications. Guardian Nexa 6 can be used as a base or laminated glass with our high-performance coatings to offer solar control and thermal insulation, and add security, sound reduction or bird-friendly properties when laminated. Helping you reduce embodied carbon across a wide range of facade applications.

Guardian NEXA can be used as a base or laminated glass with Guardian's high-performance coatings - like Guardian SunGuard(TM) and Guardian ClimaGuard(TM). As well as lowering embodied carbon, these combinations can also help improve energy efficiency throughout a building's life, and add security and sound reduction when laminated.

Affordability, as well as offering appropriate products, supporting warranties that are time-tested from healthy companies - it is easy enough to slap a 6.66kW solar system on someone's roof - but it takes care and personal investment to determine suitability and tailor solar-solutions for your home, this is what makes Nexa Solar ...
