What happened to NextEra Energy in Q2 2021?

US utility giant NextEra Energy added 1.84GW of renewables and energy storage projects to its backlog in Q2 2021, but its Energy Resources division reported a fiscal loss of US\$315 million. Of the 1.84GW NextEra Energy Resources added in the second quarter, roughly 1.45GW was new solar and 105MW was new energy storage.

What is NextEra's Energy Storage development programme?

NextEra said its energy storage development programme includes 1,322MW of large-scale battery storage ranging in size from 25MW to 230MW in various US states with signed long-term contracts and a commercial operation date (COD) in 2022.

How many renewables will NextEra Energy add to its portfolio?

NextEra Energy Resources has revealed plans to add as much as 30GW of renewables to its portfolio by the end of 2024, as it continues to build its extensive backlog of projects. The renewables business of NextEra Energy said that figure would see it build up to 14.4GW of solar capacity and as much as 6.3GW of energy storage.

What did NextEra Energy Resources add in Q2?

Of the 1.84GW NextEra Energy Resources added in the second quarter, roughly 1.45GW was new solar and 105MW was new energy storage. The clean energy business of NextEra also originated 310MW of solar-plus-storage facilities under its build-own-transfer unit, not included in the above additions.

How many MW of storage will NextEra have?

Again, the majority of these are set to be battery plants with four-hour storage duration, with a small handful of three-hour and again a single two-hour project. NextEra said it expects to sign between 1,650MW and 2,000MW of storage during the 2021-2022 period in total and between 2,700MW and 4,300MW of storage contracts during 2023-2024.

How much is NextEra worth?

NextEra has roughly 45.5GW of net generating capacity and has a planned investment portfolio of US\$50-55 billion in US infrastructure projects. This story first appeared on PV Tech . Additional reporting for Energy-Storage.news by Andy Colthorpe.

nextra Salamanca Newsagency is a store based in Battery Point, Tasmania. nextra Salamanca Newsagency is located at 31 Salamanca Place. You can find nextra Salamanca Newsagency opening hours, address, driving directions and map, phone numbers and photos. The market for battery energy storage is estimated to grow to \$10.84bn in 2026. The fall in battery technology prices and the increasing need for grid stability are just two reasons GlobalData have predicted for this growth, with the integration of renewable power holding significant sway over the power market.
