

Wood Mackenzie's China Gas & Power Service enables a number of key workflows including: Gas & power market analysts. Understand how gas and power demand will grow through 2040. Examine the short-term dynamics and implications on gas/LNG trades. Gain insight into fuel competition, e.g. gas versus coal, oil products and renewables.

This joint report with American Clean Power highlights market dynamics impacting the US onshore and offshore wind industries... [Read More](#) & [Buy Now](#) ... Wood Mackenzie's modelling of energy transition pathways and the route to net zero [Explore](#). [Market Insights](#), [Blogs](#), [podcasts](#) & [newsletters](#)

This annual report provides insight into the global solar PV inverter and module-level power electronics (MLPE) landscape,... [Read More](#) & [Buy Now](#) ... Wood Mackenzie's modelling of energy transition pathways and the route to net zero [Explore](#). [Market Insights](#), [Blogs](#), [podcasts](#) & [newsletters](#)

An integrated view of global renewable and conventional power data and insights across projects, technologies and markets. Hydrogen. Maximise investment opportunities across the hydrogen, ammonia and methanol value chain. ... Seamlessly integrate Wood Mackenzie data into your own proprietary systems with Lens Direct API services. [New Product](#)

Optimize utilities with power & renewables insights. Explore trends, investments & sustainability for a greener renewable energy landscape. ... Wood Mackenzie's modelling of energy transition pathways and the route to net zero [Explore](#). [Market Insights](#), [Blogs](#), [podcasts](#) & [newsletters](#)

However, despite this evidence of growing interest in the sector, Wood Mackenzie thinks it unlikely developers of long-duration energy storage (LDES) technologies ...

An integrated view of global renewable and conventional power data and insights across projects, technologies and markets. Hydrogen. Maximise investment opportunities across the hydrogen, ammonia and methanol value ...

After a challenging start to 2024 due to the cheap natural gas price environment, power prices have rebounded over the second... [Read More](#) & [Buy Now](#). ... Wood Mackenzie's modelling of energy transition pathways and the route to net zero [Explore](#). [Market Insights](#), [Blogs](#), [podcasts](#) & [newsletters](#)

Our Middle East and Africa onshore wind power outlook 2024 is a 50+ slide in-depth report which covers the key market drivers and... [Read More](#) & [Buy Now](#) ... Wood Mackenzie's modelling of energy transition pathways and the route to net zero [Explore](#). [Market Insights](#), [Blogs](#), [podcasts](#) & [newsletters](#)

Norfolk Island wood mackenzie power

These are the takeaways from a report published by analyst Wood Mackenzie earlier today, which expects the world's cumulative global total of installed solar and wind ...

This is the first instance that the Middle East and Africa has been included in Wood Mackenzie's global LCOE update. Analysis of utility-scale solar PV and onshore wind has been conducted for the following markets: Egypt, Saudi Arabia, South Africa and ...

In a post on the firm's website, Wood Mackenzie director of energy transition practice, David Brown, said that a Trump administration "will not change" demand for solar PV ...

Rapidly build and run power market scenarios with up-to-date infrastructure and gain shared access to your models and results to readily share with your teams. Unlock EPSI for unmatched technical support to remain agile and highly responsive to change across the power grid. Explore customised short- and long-term power market views

The report is accompanied by our 2024 Global wind power asset ownership company database. Data includes company, country of origin, region, portfolio focus, cumulative wind power assets in 2018-2023, annual capacity additions in each year, and footprints of wind power assets, as well as parent and subsidiary information.

Wood Mackenzie's Global wind turbine supply chain trends 2024 report deep dives into supply chain developments across key capital... [Read More & Buy Now](#) ... An integrated view of global renewable and conventional power data and insights across projects, technologies and markets. [Hydrogen](#).

A new Trump administration will have huge influence across both the domestic and international arenas. Introducing more import tariffs, abandoning climate policy and resolving conflicts are all high on the agenda. There are major implications for the energy and natural resources sectors.

Wood Mackenzie's Gas & LNG Market solutions offer unmatched market outlooks, accurate forecasts, powerful analytics tools, and expert analysis for you to understand today's gas & LNG market. ... [Power & Renewables](#). Accelerate the move to clean energy with low-carbon intelligence connecting assets, markets, and companies. [Metals & Mining](#).

Concentrating Solar Power, or CSP, takes energy from the sun, converts it to heat, and uses it to drive a turbine to provide renewable electricity. It has more moving parts than photovoltaic (PV) solar - which has none - so there is more that can go wrong.

Discover the most comprehensive and insightful market reports in renewable energy, developed in partnership with the Solar Energy Industries Association (SEIA) and the American Clean ...
