Solargen is a leading Energy, Water and Irrigation solution and service provider in the region. Km5 Area, kobac road, Mogadishu-Somalia Call Us: +252618515416 (Sat - Thursday)

In the northern hemisphere, solar panels should ideally be installed face south, while in the southern hemisphere, they should face north. This is because the sun appears to move across the sky from east to west, so solar panels facing south (in the northern hemisphere) or north (in the southern hemisphere) will receive the most direct sunlight ...

Aston University partners with Solargen and UoN to improve crop production in Kenya by up to 50%. Aston University enters 15-month knowledge transfer partnership with Solargen Technologies and the University of Nairobi to develop irrigation system powered by solar and wind energy; Crop yields will increase by 30 to 50% using control and sensor systems to ...
