

Notice on suspension of state-owned enterprise energy storage projects

What is the energy storage strategy & roadmap (SRM)?

WASHINGTON, D.C. - The U.S. Department of Energy (DOE) today released its draft Energy Storage Strategy and Roadmap (SRM), a plan that provides strategic direction and identifies key opportunities to optimize DOE's investment in future planning of energy storage research, development, demonstration, and deployment projects.

Is DOE preparing a draft energy storage SRM for public comment?

DOE is seeking comment from stakeholders to inform its draft Energy Storage SRM for public comment at a future time; notice of its availability will be provided through the Federal Register through a formal NOA. Interested stakeholders can view both the draft SRM and the official NOA.

What does DOE's new RD&D report mean for energy storage?

New Report Showcases Innovation to Advance Long Duration Energy Storage (LDES): DOE today released its new report "Achieving the Promise of Low Cost LDES." This report is one example of DOE's pioneering RD&D work to advance the next generation of energy storage technologies.

What is the energy storage SRM?

Specifically, the draft Energy Storage SRM updates the earlier ESGC Roadmap in consideration of the progress made across the energy storage sector since 2020, as well as reflects DOE's recent activities in support of its energy storage mission and vision.

What does DOE's new NOI mean for energy storage technology developers?

DOE has announced an NOI for \$8 million in funding for up to four projects to address manufacturability challenges that energy storage technology developers face when making design decisions that impact production of the technology, including scaling.

What is the difference between manufacturing and deployment of energy storage systems?

Manufacturing: Projects that manufacture energy storage systems for a variety of residential, commercial, and utility scale clean energy storage end uses. Deployment: Projects that deploy residential, commercial, and utility scale energy storage systems for a variety of clean energy and clean transportation end uses.

On December 27, 2024, HGE Energy Storage 6, LLC (HGE Energy), filed an application for a preliminary permit, pursuant to section 4 (f) of the Federal Power Act (FPA), ...

Expands project size to bring safe, "made in America" clean energy storage solution for Viejas Enterprise Microgrid TURTLE CREEK, Pa., July 02, 2024 (GLOBE ...

Notice on suspension of state-owned enterprise energy storage projects

The Central Enterprise Green Hydrogen Energy Production, Storage, and Transportation Innovation Consortium was launched in Beijing on August 21, guided by the State-owned ...

Eos" proprietary Znyth(TM) zinc-based battery energy storage technology is a trusted long-duration (3-12 hour) energy storage solution. It is tailor made for projects like the ...

This information was prepared as an account of work sponsored by an agency of the U.S. Government. Neither the U.S. Government nor any agency thereof, nor any of their employees, ...

Energy storage resources have become an increasingly important component of the energy mix as traditional fossil fuel baseload energy resources transition to renewable ...

Project Benefits Helps advance our state"s and region"s renewable energy goals. Energy storage projects support grid reliability and the integration of more clean energy into the electric grid.

The report also shows that in terms of cumulative energy storage capacity, California, Texas, Arizona, Nevada and Florida occupy the top five markets. Currently, 43 ...

Earlier this year, state-owned utility Egyptian Electricity Holding Co. held an expressions-of-interest tender for the design, construction and operation of a 8.2 MW solar ...

The Enterprise Solar Storage Project (proposed project) is a proposal by Enterprise Solar Storage, LLC (project proponent) to construct and operate a 600-megawatt ...

KPMG China and the Electric Transportation & Energy Storage Association of the China Electricity Council ("CEC") released the New Energy Storage Technologies Empower Energy ...

This homepage will provide application materials and a link to Infoshare, through which applicants will submit project proposals for consideration under the Garden State Energy Storage ...

This complete submission is required to be uploaded as part of your Retail Energy Storage application. If the proposed projects impact less than 30 acres of MSG 1-4, please refer to the ...

Under Review/Proposed. On February 27, 2025, the Oregon Department of Energy (ODOE or Department) received a Notice of Intent to File an Application for a Site Certificate (NOI) for the ...
