What is a Oneida energy storage project?

Representing the largest project of its kind in Canada, the proposed Oneida Energy Storage project includes development of a 250 megawatt/1000 megawatt-hour energy storage facility. The facility would draw and store existing surplus baseload and renewable energy during off peak periods and release power to the Ontario grid during peak demand.

Who is Oneida energy storage LP?

Partnering with Six Nations community Oneida Energy Storage LP is a joint venture between NRStor, Six Nations of the Grand River Development Corporation, Northland Power and Aecon Concessions.

How will Oneida energy storage benefit Ontario?

In addition, the energy storage facility will help stabilize Ontario's electricity sector by providing important grid balancing services. Oneida Energy Storage is expected to provide significant benefits to provincial ratepayers by reducing the need and cost associated with using gas-fired power plants during times of peak demand.

How much will the CIB contribute to the Oneida energy storage project?

The CIB will contribute \$170 million towards the \$500-million Oneida Energy Storage project, to be developed by Ontario's Six Nations of the Grand River Development Corporation in partnership with NRStor Inc.

What is the IESO agreement with Oneida energy storage LP?

Following a directive from the Minister of Energy, the IESO has finalized a 20-year agreement with Oneida Energy Storage LP. The 250-megawatt (MW) storage project is being developed in partnership with the Six Nations of the Grand River Development Corporation, Northland Power, NRStor and Aecon Group and is expected to be operational in 2025.

What is Oneida & how does it work?

Oneida is a first of its kind project at the forefront of Canada's emerging energy storage sector and is paving the way for other projects like it. Oneida is really the blueprint for successful public-private partnership and collaboration.
