

Palestine solar backup for home

What is the future of solar energy in Palestine?

Solar energy can be a major contributor to the future Palestinian energy supply, with its high potential in the area. Palestine receives about 3,000 hours of sunshine per year and has an average solar radiation of 5.4 kWh/m. Domestic solar water heating (SWH) is widely used in Palestine where almost 70% of houses and apartments have such systems.

Can solar energy help alleviate poverty in Palestine?

Several groups and NGOs have already paved the way for the broader use of solar energy in Palestine. Sunshine4Palestine is a great example of how a group can utilize solar energy to help alleviate symptoms of poverty.

How can Palestine reduce its reliance on imported energy carriers?

Palestine can reduce reliance on imported energy carriers by deployment of clean energy systems, especially solar, geothermal and biomass. Palestinian areas have large alternative energy potential which can be harnessed by a futuristic energy policy, large-scale investments and strategic assistance from neighbouring countries like Jordan and Egypt.

Can the environment around the Palestinian territories help solve the energy crisis?

The environment around the Palestinian territories could potentially hold the key to mitigating the existing energy crisis, as well as reduce Palestine's energy dependency on its neighbors and bolstering the economic viability of Palestine as a more self-sufficient nation.

Is Israel a viable solution to Palestine's energy crisis?

Palestine has a significant dependence on Israel and neighboring Jordan and Egypt for the majority of its energy demands. However, this system is not viable as a long-term solution.

What is solar water heating in Palestine?

Palestine receives about 3,000 hours of sunshine per year and has an average solar radiation of 5.4 kWh/m. Domestic solar water heating (SWH) is widely used in Palestine where almost 70% of houses and apartments have such systems. In fact, Palestine is one of the leading countries in the field of SWH for domestic purpose.
