

What is the Guide to solar energy in Sudan?

"The Guide to Solar Energy in Sudan" is the first booklet of its kind in Sudan that targets consumer awareness at a "grass root" level, proudly developed by Clean Energy 4 Africa, and supported by several of the largest solar energy companies in the country.

Will Sudan be able to deploy solar power in Africa?

If implemented, these projects would represent the country's first attempt to deploy utility scale PV capacity. Sudan has one of the lowest levels of solar development in Africa although it has one of the best levels of solar radiation in the whole continent.

What is the electricity market ecosystem in Sudan?

The electricity market ecosystem in Sudan is a monopoly and government-owned enterprises own and operate all power generation facilities (hydropower plants and thermal generation plants).

What is the average solar radiation in Sudan?

The annual average solar radiation exceeds 2000 kWh/m<sup>2</sup>, which is considered to be among the highest globally. Figure 1 shows the potential for electricity generation from solar PV throughout Sudan as estimated in the World Bank's Solar Atlas.

What is the electricity situation in Sudan?

The following facts highlight the electricity situation in Sudan: Electricity access rate is only 56%, which is less than the global average of 89%. The low electricity access rate, alongside frequent outages, resulted in poor utilization of electricity for productive purposes.

Will Sudan buy electricity from UAE based companies?

In an official statement, the Sudanese government said it will buy the generated electricity at a competitive price over a period of 20 years from facilities that will be built by unspecified UAE-based companies. No more details on the projects' number and locations were disclosed.

The programme will also set up associations to help farmers negotiate collectively for higher prices," said UNDP Sudan. Read more: [Solar power boosts farming and agriculture in Ethiopia](#). More than 11 million people have been displaced throughout Sudan, putting enormous strain on host communities. To lessen competition for already limited ...
