

# Peru microgrid incentive program

How can NGOs help NGOs adopt electrical equipment in Peru?

The effort ultimately assisted 10 NGOs in 18 Peruvian provinces across 3 major geographical and disparate regions, benefiting more than 25,000 rural family producers and enterprises, including women-led micro and small businesses, to adopt electrical equipment that increased their productivity and incomes.

How did ESMAP help Peru?

Expanding on the off-grid model introduced in RE1, ESMAP helped Peru to establish regulated service from the electricity distribution companies to the solar home systems.

How much electricity is available in Peru?

Based on the government's investment, along with the coordinated and innovative support of the World Bank, GEF, and ESMAP, it is estimated that the electricity coverage in rural areas of Peru more than doubled, from 30 percent in 2007 to 78 percent by 2015. administered by The World Bank.

CPUC's Microgrid Proceeding and the Microgrid Equity Coalition. The California Public Utilities Commission launched a proceeding (R.19-09-009) in 2020 that created a \$200 million Microgrid Incentive Program (MIP) to be implemented by the investor-owned utilities (SDG& E, PG& E and SCE) the first of its kind in the nation.
