

# Photovoltaic power Trinidad and Tobago

What are the solar photovoltaic systems in Trinidad and Tobago?

In Trinidad and Tobago and the wider Caribbean there is an abundance of natural energy from the sun. In Trinidad and Tobago a typical day can be insolated for 5-6 hours of sunlight. This makes the Solar photovoltaic (PV) systems very applicable for Trinidad and Tobago. The cost for these systems are constantly coming down.

Is Trinidad ready for more solar power?

Every person involved in the process has certified solar installation training. Didn't know that was a thing in Trinidad, right? We're definitely ready for more solar power to make a better, more eco-friendly and sustainable world for us all. We understand that solar power is a bit more expensive than other power systems.

What is Lightsource BP's Solar Project in Trinidad and Tobago?

The proposal involves a consortium of Lightsource bp, bp and Shell working together to develop a solar installation that will have an output power capacity of 92MW (Megawatts) in Trinidad and Tobago. Watch a summary of activity from our worldwide solar development projects in 2023, as we work towards achieving our target of 25GW by 2025.

What is Lightsource doing in Trinidad and Tobago?

Learn more about some of our projects, our partners and the benefits we're bringing to businesses and communities in Trinidad and Tobago. The proposal involves a consortium of Lightsource bp, bp and Shell working together to develop a solar installation that will have an output power capacity of 20MW (Megawatts) in Trinidad and Tobago.

Is Trinidad and Tobago achieving net-zero?

Minister of Planning and Development, the Honourable Camille Robinson-Regis, stated: "The Government of Trinidad and Tobago is committed to implementing its obligations and commitments under the Paris Agreement, which includes achieving net-zero in the second half of this century as a national priority.

The Government of the Republic of Trinidad and Tobago (GoRTT) has approved the consortium partners 148MWp solar project. ... Lightsource bp is a global leader in the development and management of solar energy projects, and a 50:50 joint venture with bp. Our purpose is to deliver affordable and sustainable solar power for businesses and ...

The Piarco Solar Park is a collaboration between the Government of Trinidad and Tobago, the European Union's Global Climate Change Alliance Plus (GCCA+) and the United Nations Development Programme (UNDP). As of November 2022, all of the prerequisite activities related to the project were 100% complete.
