

Posi energy Iran

Most homes have areas of inefficiency, and they might be quietly wasting energy. Hidden air leaks, outdated insulation, and unseen drafts can act like invisible open windows, letting your heating and cooling escape and costing you money. PosiGen's home energy audits identify and fix areas of inefficiency so you can save energy and money.

2 · Tehran, Iran - Tens of millions of people across Iran are facing major disruptions as authorities shut down services in the face of an exacerbating energy and currency crisis amid ...

According to the IMF, Iran spent \$163bn in explicit and implicit energy subsidies in 2022, which amounted to more than 27 per cent of GDP -- the highest share of the economy of any country in the ...

2 · Despite boasting massive gas reserves, Iran is facing power blackouts and industrial shutdowns. Years of mismanagement and false priorities threaten to turn the country into an ...

Posi Energy has demonstrated a new lithium-silicon battery architecture that potentially could double the energy density of batteries without forming any lithium dendrites. The lithium-ion battery architecture would also be able to maintain capacity after more than 300 cycles and halving the required anode weight and volume.

PLEASANTVILLE, N.Y., Oct. 3, 2022 /PRNewswire/ -- Today, POSi Energy - Silicon Power, announced the demonstration of a new lithium-silicon anode that allows a revolutionary performance step-up in lithium-ion batteries. POSi's lithium-ion battery architecture uses a record high-cathode loading, showing the potential to double the energy density without forming any ...

POSi's lithium-silicon anode has the potential of safely delivering gravimetric and volumetric energy densities of greater than 600 Wh/kg and 1200 Wh/L, respectively, at the ...

Iran's energy minister says the country seeks to increase electricity generation capacity from the renewable sources of energy to 50 gigawatts (GW) in the next five years. Abbas Aliabadaei said on Monday that the government will provide loans and incentive to households and private sector investors who contribute to the expansion of the renewable sector in Iran.
