MTI-Hungary Today 2022.10.17. ... According to the Hungarian Solar Panel Association, the government's decision to suspend the grid feed-in of electricity generated by future solar systems is contrary to the interests of the sector, the population, and the country.

Shortly before, on October 14, the government also made a major announcement to suspend the feed-in tariff for newly connected residential solar systems. The reason for this is that solar panel systems have recently been spreading at a very rapid pace due to the energy crisis, but the Hungarian electricity grid needs to be upgraded.
