An SPV owned by ENTEKA Wind Parks S.A. (60%) and Greentop Energy Systems S.A. (40%) founded in Athens, on 30/07/2003. Its sole purpose is to develop, construct and operate a wind project in the island of Andros, with total power of 2.7 MW.

Qatar greentop energy systems s a

The Qatar National Renewable Energy Strategy aims to create a sustainable, cost-effective energy system. It leverages Qatar's abundant natural gas reserves and its potential for renewable energy. The strategy outlines a roadmap to achieve 4 gigawatts from centralized renewable energy projects and 200 megawatts from distributed projects by 2030.

Qatar's successful exploitation of its natural gas resources has been a cornerstone of its rise as a global energy power. Despite progress in diversification, the energy sector remains a primary driver of Qatar's economy, which makes it integral in any...

Efficient Resource Use: Green buildings conserve water, energy and resources so it enhances our environment and produces healthier living and working spaces. **Innovative Features:** Qatar green buildings utilize rain water harvesting, grey water recycling renewable energy, to save water, manage energy and mitigate impact of climate change.
