Recom power China

In 2019, RECOM acquired Italian power specialist "Power Control Systems Srl" (PCS). PCS was founded in 1980. It is located in a modern 4.500m² R& D and production facility in San Vendemiano, northern Italy. Focusing on quality and highly reliable products, PCS is an expert in the field of high-power supplies.

The RECOM group of companies was founded in 1974 in Germany and now has a presence across all continents, industries, and regions, with a global manufacturing and distribution base, offering over 30 000 products covering isolated and non-isolated DC/DC converters, voltage regulators and AC/DC power supplies from less than 1W up to tens of kW.

An Introduction to the Fundamentals The RECOM AC/DC book of knowledge is an extensive collection of experience and learnings necessary to implement successful AC/DC power supply designs. It is the culmination of many years of experience and numerous power supply designs from RECOM's technical guru and innovation manager, Steve Roberts.

We cannot exclude the possibility that RECOM products purchased from other sources are counterfeits. Please note that you may be liable to damages for breaching competition and trademark protection laws by purchasing RECOM products from unauthorised sources, and that we cannot honour any guarantee claims on such products.
