How many employees does Elyos energy have?

The platform for energy flexibility and demand response. Founded in 2023 by Philippa Brown, Adrian Johnston, and Panos Stravopodis, Elyos Energy has 3 employees based in London, UK. Elyos Energy is hiring for 1 roles in engineering.

How many followers does Elyos energy have?

Elyos Energy | 907 followers on LinkedIn. Energy flexibility and demand response for large commercial buildings | Elyos Energy - The platform for energy flexibility and demand response.

What is Elyos energy?

Elyos Energy helps companies save cost and reduce carbon emissions by shifting electricity consumption outside of peak demand. We connect to smart thermostats, HVAC systems, batteries and EV chargers to automatically lower consumption during peak times. Electrification is at the core of the UK's net zero strategy.

What's new at Elyos energy?

With funding from Y Combinator, Rebel Fund, Zeno Partners and Lakestar we are excited for the next phase of growth at Elyos Energy. We are working with leading commercial buildings to save cost and carbon while reducing strain on the grid. Join us on our mission to build a flexible and robust energy system.

What is Elyos demand response?

Save on your electricity bills by shifting your energy usage with integrated and automated BMS controls Elyos Demand Response reduces your energy consumption during times of peak demand on the grid Elyos Energy 2024. Registered in England & Wales (Elyos Energy UK Ltd.) with company No: 14924564 All rights reserved.

Is Elyos energy a 'net zero' company?

Elyos Energy (YC S23) has closed a \$3M seed round to scale its energy flexibility and demand response platform for commercial buildings. Electrification is at the core of the UK's net zero strategy.

A significant increase in offshore wind capacity helps to address the question of how we'll generate energy in a net zero Britain, but it doesn't answer the question of what upgrades the grid needs to deliver this massive increase in volatile ...

We are a team of industry experts from OVO Energy, Bulb Energy, Rolls-Royce and Boston Consulting Group, passionate about solving our world's real problems in the best way. Commercial buildings make up more than 30% of electricity ...
