Roughly two years ago I found a really nice investment opportunity (guaranteed minimum 10% annual ROI over the course of 5 years) in wooden pellets through Serge Energy, a company based in Finland. I was a bit skeptical, so I did a ton of googling around and decided to eventually go for it. The amount I invested was fairly small, lets say 5k.

The conversion will increase the proportion of renewables in the energy mix on Reunion Island from 35% to 51% and make it possible to reduce greenhouse gas emissions by approximately 640,000 tonnes of CO2 equivalent per year - an 84% decrease in direct emissions compared to the plant's current operating levels. ... Serge MEVO, Head of Utilities ...

As investors and business people, we all need to make sure that our businesses and investments operate in areas that contribute to the good of the planet. Otherwise, the investments that we do make, will almost certainly be contributing to climate change. Investing in the production of renewable energy should not only be about doing good, but it should also be about ...
