Safety and Protection. Inverters are designed with numerous safety features to address various risks. Anti-islanding protection, for instance, ensures that in the event of a power outage, the solar system shuts down, preventing the potentially dangerous back-feeding of electricity into the grid. Other safety mechanisms include automatic shutdown in case of ...

SMA America's new Sunny Highpower PEAK3 inverter is now available for ordering in North America and will begin shipping in the first quarter of 2019 signed for larger distributed generation and utility-scale projects, the Sunny Highpower PEAK3 can be used as modular building block for developers in need of a scalable 1,500 VDC solution for large-scale ...
