

San Marino pillswood bess

What is pillswood?

Pillswood stands as the flagship project under owners Harmony Energy Income Trust and the developers at Harmony Energy. It debuted as a game-changer, claiming the title of Europe's largest Battery Energy Storage System (BESS) by MWh.

What is pillswood battery energy storage system (BESS)?

arch 2023: Official launch and site opening
PROJECT OVERVIEW: The Pillswood Battery Energy Storage System (BESS) near Hull in northern England was officially opened by Harmony Energy and its investment company, Harmony Energy Income Trust, in March 2023. This 98MW/196 MWh scheme is Europe's largest

What is the pillswood Bess project?

an energy generation and to protect the future of our planet. The Pillswood BESS project is the first of eight similar battery energy storage schemes scheduled for delivery by HEIT in the coming year. Harmony also has plans to replicate its UK success in continental Europe to address the urgent need to deploy significant volumes of BESS to suppo

What makes pillswood's Bess a top-performing energy storage facility?

Since its launch in November 2022, Pillswood's BESS has consistently ranked among one of GB's top-performing BESS facilities. It has garnered accolades, including prestigious awards such as the Energy Storage Awards and the Solar & Storage Live Awards in 2023.

What awards has pillswood Bess won?

It has garnered accolades, including prestigious awards such as the Energy Storage Awards and the Solar & Storage Live Awards in 2023. To see a timelapse of the multi-award winning Pillswood BESS, please visit the Harmony Energy YouTube channel.

Is pillswood the biggest battery storage project in Europe?

Image: Harmony Energy. Alex Thornton, operations director at Harmony Energy, gives us a deep dive into Pillswood, the biggest battery storage project in Europe, including the bold decision to be an early-mover into 2-hour lithium-ion BESS, in a market of much shorter duration assets.

Located at Pillswood near Cottingham, East Yorkshire, the facility is capable of storing up to 196 MWh of energy in a single cycle, which could power roughly 300,000 homes in the area for two hours.

Turning our attention to Europe, in October 2023, Harmony Energy Income Trust (HEIT) energised the "joint-biggest BESS in Europe" in the form of Bumpers, a 99MW/198MWh asset in Surrey, England. The output of ...

We develop, build, own and operate renewable energy infrastructure projects across Europe and New Zealand to power a more sustainable future for everyone. Our first battery energy storage site went live in June 2020, and since then, Harmony Energy has developed the three largest BESS sites in Europe including the multi-award winning Pillswood site.

One of its operational BESS assets recently came online in Farnham in June 2023. Farnham was HEIT's third project to be energised following its 98MW/196MWh Pillswood BESS project, which went live ahead ...

Fotowatio Renewable Ventures (FRV) and Harmony Energy have successfully energized Clay Tye, Europe's joint-largest Battery Energy Storage System (BESS) by MWh. This milestone, powered by Wilson Power Solutions' transformers connected to Tesla Megapacks, marks a significant leap in sustainable energy infrastructure. Located in Essex, the Clay Tye ...

Creyke Beck Electricity Substation, from Wikimedia Commons, the free media repository, is adjacent to the new Pillswood BESS. The Pillswood site has been installed adjacent to National Grid's Creyke Beck substation. This substation will be upgraded and eventually connected to Dogger Bank. When complete Dogger Bank will be the world's ...

HEIT's portfolio includes two of the biggest BESS projects in Europe, Pillswood and Bumpers, equally sized at 98MW/196MWh each. The eight project portfolio totals 395.4MW output to 790MWh capacity (all 2-hour ...

Harmony Energy Income Trust has said its 98MW/196MWh Pillswood battery energy storage system (BESS) was one of "GB's best performing BESS projects" in Q1 of 2023. The battery asset, which went live ahead of schedule in November 2022 as reported by Solar Power Portal, had been dubbed by Harmony Energy as "Europe's biggest BESS (by MWh

The Pillswood Battery Energy Storage System (BESS) near Hull in northern England was officially opened by Harmony Energy and its investment company, Harmony Energy Income Trust, in ...

Alex Thornton, operations director at Harmony Energy, gives us a deep dive into the biggest battery storage project in Europe, including the bold decision to be an early-mover into 2-hour lithium-ion BESS, in a market of ...

The Pillswood BESS Project. Near the port city of Kingston Upon Hull in Yorkshire's East Riding, Harmony has developed its third, and largest, BESS project with a Tesla 2-hour Megapack system to boot. This is Europe's largest BESS by energy capacity with the ability to store up to 196 MWh of electricity in a single cycle.

The 196MWh Pillswood BESS project in northern England is the largest of its type in Europe. Image: Harmony Energy. A national solar energy industry association has criticised the UK government's

newly-released Battery Strategy for paying "insufficient attention" to opportunities presented by battery energy storage systems (BESS).

The small state of San Marino is the oldest and longest-running republic in the world. Distributed over 61,196 km², it is strategically nestled in the Italian peninsula and borders the Marche and Emilia-Romagna regions. A natural panoramic terrace located a few km from the sea and the attractions of the Romagna Riviera.

The fund, which is managed by developer Harmony Energy and trades as HEIT, has five operational UK battery energy storage system (BESS) projects and three set to be commissioned this year, all in all totalling 395.4MW/790MWh. Those include the two joint-largest operational systems in the UK and Europe, Pillswood and Bumpers at 198MWh each.

The flagship project, Pillswood (196 MWh / 98 MW), was energised (ahead of the original schedule) in November 2022. The final project: Wormald Green (66 MWh / 33 MW) was energised in September 2024. The portfolio is therefore 100% operational (790.8 MWh / ...

BESS enable the grid to keep renewable energy assets operating by sending the surplus power to charge the BESS to be used later when the grid is under stress or in need of power. ... November 2022 marked a significant milestone for HEIT when HEIT's Pillswood site - Europe's biggest battery energy storage system (by MWh) - went ...

Kavanagh said Pillswood is Harmony's third, and largest, BESS. It employs a Tesla 2-hour Megapack system with lithium iron phosphate batteries. He told BEST it is the first of six similar projects the Trust intends to deliver in ...

HEIT's portfolio includes two of the biggest BESS projects in Europe, Pillswood and Bumpers, equally sized at 98MW/196MWh each. The eight project portfolio totals 395.4MW output to 790MWh capacity (all 2-hour duration assets), of which 79% (312.5MW/625MWh) is ...

Project name: Pillswood BESS Location: Hull, UK Capacity: 98MW (196MWh Lithium-ion) Energisation date: November 2022 Developer/asset owner: Harmony Energy, Harmony Energy Income Trust ... 2-hour lithium-ion BESS, in a market of much shorter duration assets. How we delivered the 98MW/196MWh Pillswood BESS Project Credit: Harmony Energy.

HEIT's winning entry nominated the Pillswood project in Hull, which is one of the largest BESS in Europe by MWh at 196 MWh (98 MW). Pillswood has also recently won the "Grid-scale Standalone Energy Storage Project of the Year" award at the Energy Storage Awards as well as "Best Renewable Energy Project in the Humber Area" at the Humber Renewables Awards.
