

# Santo domingo energy storage company plant operation

Which power plant is launching in Santo Domingo in 2021?

For this floating power plant, Siemens will also deliver its hybrid SIESTART solution, which is a mix of flexible (gas turbine) combined cycle power plant with a battery energy storage system. Seaboard Estrella del Mar III will commence its operations in Santo Domingo in 2021.

Could a water-based power plant benefit Santo Domingo?

A water-based power plant could be one very valuable asset. Estrella del Mar III offers a host of benefits to the people of lively Santo Domingo, with a more reliable energy supply, reduced LCoE (levelized cost of electricity), and less noise--residential housing is close to the power plant.

Does Santo Domingo need a power plant?

The steady flow of electricity can support both tourism and Santo Domingo's innovative start-up scene. Nobel literature laureate Mario Vargas Llosa described the Dominican "appetite for noise" in his book *The Feast of the Goat*. A city that's already pulsating doesn't need any extra noise from a power plant.

Can a battery energy storage system be integrated into a power plant?

For the SIESTART solution Fluence Energy, a company of Siemens and AES, is providing a 5MW/10 MWh battery energy storage system to be integrated as part of the power plant for frequency regulation control. This will allow the plant to operate at full capacity with highest fuel efficiency.

A tough challenge to achieve, but a necessity in light of climate change and the need to provide electrical energy for the world's growing population." For this floating power ...
