

Saudi Arabia jumbo solar

What is Saudi Arabia's largest solar power plant?

Saudi Arabia has unveiled the world's largest solar-power facility, with a generation capacity of 2,060 MW, which is expected to start operations by the end of 2025.

Will Saudi Arabia invest in solar power?

The state has plans for further investments in countries across the Middle East and North Africa, which could make Saudi Arabia a key supporter, if not producer, of solar power in the region. With Saudi money and local support for solar power, these investments could establish a new sense of collaboration and renewable investment in the region.

How much solar power will Saudi Arabia have by 2032?

The Saudi agency in charge of developing the nation's renewable energy sector, KA-CARE, announced in May 2012 that the nation would install 41 gigawatts (GW) of solar capacity by 2032. It was projected to be composed of 25 GW of solar thermal, and 16 GW of photovoltaics.

Does Saudi Arabia have a solar industry?

Yet this is not to say that Saudi Arabia's solar industry is non-existent, merely that it has invested more readily in foreign projects than ones on its own doorstep. ACWA Power, which is part-owned by the Saudi Arabian Government, has backed the largest private solar power projects in both Egypt and South Africa.

Why is solar power important in Saudi Arabia?

Solar power in Saudi Arabia has become more important to the country as oil prices have risen. In 2021, 60.89% of energy consumed was produced by burning oil.

Who owns the Sudair solar project in Saudi Arabia?

The project will be developed and operated by a 50:50 joint venture established by ACWA and Badeel. The two companies are also developing the Sudair 1.5-GW solar facility, and both companies are backed by the Saudi Arabia's sovereign wealth fund, the Public Investment Fund (PIF), which holds a 50% and 100% stake in ACWA and Badeel respectively.

On October 17, at the 2024 International Engineering Supply Chain Development Conference, Arctech signed an order with China Energy Engineering Group International Engineering Co., Ltd. for the 2.3 GW photovoltaic project in Saudi Arabia. This marks another deep collaboration between the two parties in the Middle East energy sector.

The Saudi Power Procurement Company (SPPC) has announced a shortlist of bidders for its fifth round of tenders under the National Renewable Energy Programme (NREP), aimed at boosting the country's solar energy capacity. This round targets 3.6GW of solar photovoltaic (PV) capacity across four projects.
