

What's it like working at Northvolt Drei?

Nadia: Working on construction at Northvolt is truly exhilarating. We're on a multi-billion Euro project at Northvolt Drei, and it's incredibly rewarding. While it's complex, we have an optimized master plan neatly divided into manageable stages. But here's the thing that sets us apart - our team is something else.

Where is the Northvolt Drei EV battery plant?

The Northvolt Drei EV battery plant in Heide, Germany, one of several European-led battery facilities to have been delayed or canceled. Europe's bid to build a homegrown battery industry to break China's dominance in electric vehicles is failing.

How will Europe respond to the Northvolt Saga?

People involved in the Northvolt saga said options were narrowing for Europe to address its dependence on China and other parts of Asia for the technology and materials that will be critical as the automotive industry transitions to electric vehicles.

Is Northvolt a reversal of Europe's ambitious push to build a green economy?

Northvolt's woes also throw into question Europe's ambitious push to build a self-reliant green economy. It's a stunning reversal for a company that was less than a year ago wooing investors with a planned initial public offering that would have valued it at \$20 billion.

Will Northvolt's financial collapse crush Europe's dream of electric vehicle batteries?

Northvolt's financial collapse has not entirely crushed Europe's dream of developing its own electric vehicle batteries but fulfilling it is likely to require Chinese cash and expertise.

Is Northvolt a bottle-neck?

Early on, Northvolt co-founder Peter Carlsson had singled out access to competence as a bottle-neck, saying in 2021 that "it's incredibly hard to get a hold of great cell designers and people with extensive experience in building these kinds of factories."

Northvolt Drei - eine Runde weiter Grünes Licht von der EU-Kommission Große Erleichterung und Freude bei allen Beteiligten: Am 8. Januar 2024 gab die EU-Kommission die staatlichen Beihilfen für die geplante Batterie-Gigafactory „Northvolt Drei“ bei Heide frei.
