Addis Ababa. Addis Ababa, the capital and largest city of Ethiopia, has become a leading hub for the solar energy sector. As the nation's financial and commercial heart, Addis Ababa provides ideal conditions for investment, with well-developed infrastructure and access to both local and international markets.

A current government initiative plans to bring solar power to 150,000 households. The first phase included 1 MW of panels. The first large installation of solar was a village grid of 10 kW in 1985, expanded to 30 kW in 1989. A solar panel assembly plant opened in Addis Ababa in early 2013 capable of making 20 MW of panel per year.
