Who is ganfeng lithium battery?

Ganfeng Lithium Battery builds a high-end polymer lithium battery R&D and production base in Huizhou, Guangdong, and develops high-end polymer lithium battery R&D and production, in order to increase the company's high-end polymer lithium battery production scale and market share, and enhance its core competitiveness.

How much does ganfeng lithium make a year?

Public data shows that from January to September 2020, Ganfeng's lithium battery operating income reached 875,989,200 yuan, and its net profit was 39,585,500 yuan. "Committed to creating the most creative lithium battery smart new energy, and becoming the first echelon of the global lithium battery industry" is the vision of Ganfeng Lithium.

Why should you choose ganfeng lithium?

Why Choose Us? GanFeng Lithium, the second largest in the world and the first domestic supplier of lithium compounds, produces lithium battery cells by itself, owns different lithium mines in Australia, Ireland, Mexico and Argentina, recycling of used lithium iron phosphate batteries in Malaysia and Mexico.

What is ganfeng lithium's future development strategy?

As an important layout in the upstream and downstream integration strategy of Ganfeng Lithium, the lithium battery segment represented by Ganfeng Lithium is one of the Group's future development focuses.

Who is ganfeng lienergy?

Ganfeng LiEnergy has first-class research & development teams and advanced product research & development line, and its products have entered the supply chain of many well-known brands. To build the most innovative lithium energy solution with sustainable energy, to become the leading company worldwide amongst the lithium energy industry.

Can ganfeng lithium replace lead-acid batteries?

Among them, in order to reduce the cost of customer replacement, Ganfeng Lithium has launched a lithium iron phosphate battery system that can directly replace lead-acid batteries to achieve efficient and convenient replacement of lead-acid batteries for industrial vehicles.

Ganfeng Lithium has disclosed plans to invest 8.4 billion yuan (US\$1.3 billion) in two new lithium battery projects in China, with a combined annual production capacity of ...

Ganfeng LiEnergy is a subsidiary of Ganfeng Lithium, an A+H share listed company (A:002460, H:01772). With Ganfeng Lithium's brand, technology, and resources, and a promising industry, Ganfeng LiEnergy is committed to solve energy problems with the most sustainable resources and the most advanced technologies,
