Smart Energy were very polite, helpful and informative from start to finish. Also extremely pleased with the final finish, the boiler and radiators work perfectly. We were so pleased that our daughter also used them to change their boiler etc.. A very big thank you to Steve, Matt and Smart Energy a job well done. Date of experience: 18 August 2021

Tajikistan: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO 2 - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.
