

# Smart energy set Isle of Man

How many smart electricity meters will be installed in the Isle of Man?

A four-year project to roll out about 50,000 smart electricity meters across the Isle of Man has begun. About 8,000 pre-payment key meters will be replaced during the first phase of the £18.2m programme, Manx Utilities said. The upgrading of the infrastructure at all other domestic and commercial properties will begin in early 2023.

How can a smart meter help me manage my energy consumption?

Smart meters can help you monitor and control your energy consumption through the use of our SmarterLiving app. This will help provide a better understanding of your electricity usage and support you in making changes to your consumption behaviour. We can upgrade your meter

Should in-home displays be included in Manx Utilities' 'Smarter Living' project?

Manx Utilities said while in-home displays had initially been considered 'an integral part' of the project, they would now be offered as a paid-for optional extra. Customers would instead be able to use a new free Smarter Living app to monitor energy consumption.
