

Smartenergy unit Mauritius

Does Mauritius use solar energy?

Mauritius has an attractive potential for solar energy, with an average annual solar radiation value of some 6 kWh/m²/day. Solar photovoltaic (PV) energy is an option due to the almost year-round intensive sunlight. To achieve the target of 60 percent renewable energy by 2030, Mauritius has commissioned six more solar farms.

Does Mauritius need a battery energy storage system?

Mauritius aims to increase the share of renewable energy sources in its energy mix, which leads to fluctuating power injection. To reduce this fluctuation from variable renewable energy sources, the installation of Battery Energy Storage Systems (BESS) is required.

How does Mauritius generate energy?

Mauritius generates energy through various means including wind farms, solar energy, biomass, wave, and waste-to-energy projects. Currently, bagasse (sugarcane waste) is the leading source, contributing 13.3 percent to the renewable energy generation. Mauritius derives other renewable electricity from hydro, wind, landfill gas, and solar.

Who owns the Central Electricity Board in Mauritius?

The Central Electricity Board (CEB) is a parastatal body wholly owned by the Government of Mauritius and operating under the aegis of the Ministry of Energy and Public Utilities. PO Box 134 Rue du Savoir, Ebene Cybercity Ebene 72201 Mauritius Tel: +230 404-2000 ceb@ceb.mu

What is the Smart Grid Roadmap for Mauritius?

The Smart Grid Roadmap for Mauritius was launched in December 2018 to help the CEB integrate new technologies in the power system, enhancing reliability, safety, and security.

Does Mauritius have a waste-to-energy project?

Mauritius produces about 500,000 tons of solid waste per year and its only landfill site is nearly full. In 2016, CEB (Mauritian utility company) issued a Request for Proposals for a 24 MW waste-to-energy project. Accordingly,

Mauritius was among the first batches of countries to receive a grant from the Fund amounting to USD 28M. This project is aimed at supporting the Government to achieve its target of 35 per cent renewable energy by 2025. It will finance the installation of battery energy storage system to ...
