How much does a smartflower solar panel cost?

Now, let's talk about the numbers. How much does the SmartFlower cost? Before applying for all incentives and tax credits, the SmartFlower solar panel system ranges in price from \$25,000 to \$30,000 with the average cost to install at \$27,000. There are two models that you can choose from, and this is why the price can vary.

What is smartflower solar?

Come straight from Austria, SmartFlower is a revolutionary photovoltaic solar installation that can improve electricity production by 40% compared to conventional solar roof installations. Thanks to its unique and ingenious flower-shaped design, the SmartFlower's solar panels rotate in order to follow the sun throughout the day.

What is the warranty on a smartflower solar panel system?

The SmartFlower solar panel system has a system warranty of 5 years and a module performance warranty of 25 years. This also differs from other solar panel systems that have 20 to 25-year warranties for both the system and performance. Even most ground-mounted systems with sun-tracking capability have 10-year system warranties.

How much solar energy does a smartflower produce a year?

Depending on location, a SmartFlower can produce 3,800 to 6,200 kWh of solar electricity per year - which is around 40% more than compared to what conventional solar panels produce.

Where is smartflower Solar Flower installed?

However, it has been installed at a handful of U.S. houses and organizations like the Detroit Zoo and Mary Baldwin University. The U.S. division of Smartflower is currently based in Boston, Massachusetts. How is the Smartflower solar flower different from other solar options?

Are smartflower solar panels ground-mounted?

Smartflower's solar installations are ground-mounted: The panels, inverter and optional battery are part of one freestanding structure that is delivered fully assembled. Installation is about as close to plug-and-play as any major solar installation can claim. One Smartflower stands about 16 feet tall when its 12 solar petals are fully unfurled.

Die SmartFlower ist eine revolutionäre Form der Solartechnologie, die Energieerzeugung auf eine neue Ebene hebt. Inspiriert von der Natur, folgt diese intelligente Photovoltaikanlage der Sonne im Laufe des Tages und optimiert so die Lichtausnutzung eine bis zu 40% höhere Energieeffizienz im Vergleich zu herkömmlichen Solarsystemen.
