Many people still view solar power as unreliable or complex or not as cost-effective as we'd like, which also puts a damper on the solar appliances aisle. The media often focuses on the "new and shiny". Solar appliances, representing a gradual shift towards sustainability, don't fall into that category.

No inverter required!! - SunStar operates on solar and DC systems, and automatically detects and functions using 12v or 24v battery banks. Basic design - SunStar appliances don't have water dispensers, automatic ice makers, touch screens, WIFI, or Bluetooth. A freezer or refrigerator should be made to cool and freeze food as efficiently as possible.
