# Solar energy business in Réunion

Entretien, Maintenance et Dépannage de solutions solaires ; La Réunion

Reunion co-founders Billy Lee and Andy Moon met in 2008, while working at a leading solar development company. Billy and Andy pioneered early solar financing structures with tax equity and private equity investors, leading some of the first solar transactions with institutions such as US Bank, JP Morgan, Wells Fargo, Bank of America, Key Bank, PNC, Nord/LB, D.E. Shaw, ...

This project secures an important source of renewable energy for Réunion's electricity mix, and supports the region's energy transition ambitions. EDF's power generation fleet on Reunion Island is now 100% renewable, in line with the overall objective of making non-interconnected regions a benchmark for renewable energy.

Specifically, coal energy contributed to almost a third of the total electricity generation. On the other hand, low-carbon energy sources made up a bit more than a quarter of Réunion's electricity. These sources included hydropower, which supplied around 12% of the electricity, solar power at just under 9%, and biofuels contributing close to 8 ...

Bridging the research gaps on solar energy to accelerate the energy transition in La Reunion Focusing on solar forecasting and smart management of energy systems, ... Stay informed of the latest news and events related to our TwInSolar project and solar energy in La Reunion.

"Researchers in Réunion and Corsica are collaborating mainly on the integration of photovoltaic solar energy into the electricity grid -- a major resource from both regions," Grondin says ...

La Reunion An ideal territory for Research and Innovation, regarding the energy-transition in carbon-intensive islands A remote island, with an outstanding biodiversity and unique natural conditions With its preserved natural assets, La Reunion provides an exceptional living condition and an outstanding fertile environment for research and economic development. One of world's ...

Solar energy policies in La Reunion A carbon intensive island... With a strong regional ambition for the Energy Transition : the Multi Annual Energy Plan (PPE) adopted in 2022... The key objective of this plan is to reach 100% renewable energy sources in electricity generation by 2030, through : And a smart specialization strategy (RIS3) aiming

Reunion's founding team has led hundreds of clean energy financings since 2006. Reunion is a leader in the tax credit transfer market, having executed over \$1.5 billion in tax credit transfers for the 2024 tax year.
