

Solar energy company names in Cayman Islands

What is the first commercial solar project in Cayman?

The 20 acre 5MW Solar Farm located in Bodden Town is the first commercial solar project in Cayman. Completed in 2017, this solar farm was also the first Independent Power Producer (IPP) in Grand Cayman, selling electricity to CUC through a Power Purchase Agreement (PPA).

Who produces electricity in the Cayman Islands?

Electricity in the Cayman Islands is produced by the Caribbean Utilities Company, Ltd, which relies on imported diesel fuels. Caribbean Utilities Company, Ltd has 17 diesel units, one gas turbine, and two steam turbines to produce electricity. CUC generating unit boasts of 161 MW.

Is Cayman the perfect place to harness solar energy?

Significant improvements are being made in the solar energy industry every year and Cayman is the perfect location to harness the power of the sun. Solar energy can be harvested in two ways: solar photovoltaic (PV), which converts sunlight into electricity and solar thermal, which heats water.

What type of renewable energy is best for the Cayman Islands? We have analysed many different energy source options including solar, wind, thermal, and waste-to-energy. Currently, solar is the most viable renewable energy option for Grand Cayman. Large, utility-scale solar can make the biggest, swiftest gains in

In 2014, the same team installed the Island's largest rooftop PV system (shown above), and now has over 1,000,000 watts of commercial solar energy systems installed and managed in Camana Bay. With mega watts more planned in 2018 and beyond, Florida Solar One and Cayman Solar are the largest Cayman solar companies on island.

The Lake Destiny 5MW Solar Farm is the first utility-scale, commercial solar project in the Cayman Islands. It was completed and commissioned in June 2017 and is located on a 20-acre site in Bodden Town, Grand Cayman. The Farm comprises 21,690 poly-crystalline photovoltaic (solar) modules each with a DC-rated capacity of 305 watts.

The company has installed 21 solar arrays across its business portfolio, contributing to 11% of the total solar energy production in the Cayman Islands. This initiative reduces the reliance on fossil fuels and supports the island's efforts to diversify its energy sources and enhance energy security.

Solar power is a trusted option for renewable energy and in the long run can reduce your electricity bill. Solar panels can be installed on residential and commercial properties. The companies below are professional solar panel installers who design and install solar systems to meet the Cayman building code.
