Solar Frontier SF175-S 175 Watt Solar Panel Module power output and efficiency. The Solar Frontier SF175-S 175 Watt Solar Panel Module has a maximum output of 175 watts. Efficiency is an important thing to look at when comparing solar panels, since it affects how much power can be captured from the sun.

At Solar Frontier, we look forward to providing you the highest standards in solar energy performance and customer service. The following manual contains vital information on handling, installing, wiring, operating and maintaining SF PV modules,

Solar Frontier's SF175-S module series offers among the highest conversion efficiencies of any mass-produced thin-film module - up to 13.8%. Initial exposure to light can increase the power output further due to the "light soaking" effect of CIS modules.
