Angola is currently developing several solar power projects that tie in to the country's Angola Energy programme and its environmental commitments. Among current developments is a mega-project consisting of seven photovoltaic plants that will be commissioned by Q2 2023 and additional projects funded by the Angolan and US governments.

The result is the Angola Solar Project, the largest renewable energy project in Sub-Saharan Africa. It creates 370 MWs of renewable energy and prevents the emission of 935,953 tons of carbon (CO) per year. Sun Africa initiated this ...
