Portugal is intensifying its commitment to renewable energy with the announcement of new incentives aimed at promoting solar panel installations and enhancing window efficiency in residential properties.

Specialties: Even though it's been decades since its invention, there's still a lot of misinformation surrounding solar energy. Apricot is here to change that. We experience the benefits of solar daily. They're real and undeniable. That's why Apricot Solar wants homeowners to experience just how affordable and logical solar can be. From custom solutions to installation to financing, we ...

How come Portugal's cumulative solar capacity by the end of 2022 (2.59GW) was smaller than the annual capacity additions that Spain (3.4 GW) and not-that-sunny Netherlands (3 GW) managed to add that year? Boasting the highest solar radiation in Europe, Portugal has huge PV potential. However, despite often reaching over 50% of renewable ...
