In view of Russia's attacks on Ukraine's energy infrastructure, the country will receive EUR500 million to repair damaged energy facilities and 1,000 solar panels and generators, European Commission President Ursula von der Leyen said during the first day of the Ukraine Recovery Conference in Berlin on 11 June.

I'd like to gift a PV Setup to family in Ukraine. Their roof may not be suitable for mounting, but they have plenty of land and sun. I want it to be easily setup, targeting roughly 7-12kW generation, 10-20kWh storage, and 230V/50Hz output.

Solar PV panels generate electricity from the sun. Solar Thermal panels (tubes) collect the heat from the sun and transfer it to your hot water tank via circulating glycol. Solar Thermodynamic panels are essentially specialised heat pumps which use compressors to collect the heat from the sun and transfer it to your hot water tank.
