Brighten Haiti takes end-of-life, low power, obsolete, safe, functioning silicon-based solar panels (sorry, no Cad Tel modules), from project owners, EPC's, distributors, and manufacturers. We aggregate and test them for safety and usable power, at a US "collection site". Then ship them to Haiti. Safety is our highest priority.

The majority of solar generators sold in the United States and Canada produce 110V/120V AC power since most household appliances run on 120V power. However, some large appliances need more power. They run better and more efficiently with higher voltage.

With an IP68 waterproof rating, our NextGen 220W Solar Panel maintains its high performance even when it's in contact with water. So you can recharge near a lake or take it out on your boat without worry! High-level protection. Designed to withstand high temperatures while still ensuring high levels of solar generation.
