Why is Mali building a new solar power plant?

As Mali grapples with an ongoing electricity crisis that hampers economic growth, transitional President Assimi Goïta laid the foundation stone for a new 200 MW photovoltaic solar power plant. The Russian company NovaWind, a subsidiary of Rosatom, is constructing the plant, marking a significant step in the country's energy sector.

Why is Mali launching a 200 MWp solar power plant?

Loading... Mali's President Assimi Goïta has launched a 200 MWp solar power plant project with NovaWind, a Rosatom subsidiary, to address the nation's electricity crisis and promote sustainable energy. The EUR200 million investment aims to supply 10% of Mali's electricity within 12 months.

Which company is constructing a new energy plant in Mali?

The Russian company NovaWind, a subsidiary of Rosatom, is constructing the plant, marking a significant step in the country's energy sector. In recent weeks, Mali's transitional government has intensified efforts to implement this solution nationwide.

Will Mali develop nuclear power in 2023?

In October 2023, Mali and Russia agreed to develop civil nuclear power, according to Voice of America (VOA). The construction of two additional 200 MW solar power plants near Bamako is set to begin on May 28 and June 1. The electricity sector in Mali heavily relies on imported fossil fuels for thermal production.

How much energy does Mali produce?

A May 2023 report by the United Nations Development Programme (UNDP) stated that in 2020, Mali had a production capacity of 1,024.92 MW, including 162 MW from self-producers - all thermal. Electricity production stood 2,577.44 GWh, comprising 69% thermal energy, 26.8% hydroelectricity, and 4.2% solar.

Where is the largest solar power plant in Sub-Saharan Africa?

On May 24, 2024, President Goïta visited Sanankorobain the Kati Cercle to initiate the construction of the largest solar power plant in sub-Saharan Africa, covering 314 hectares. About thirty kilometers from the capital, Bamako, this project is part of a government partnership with NovaWind.

The Mauritania-Mali 225kV Electricity Interconnection and Solar Power Plant Development Project form part of the Desert to Power Initiative. The funds comprise \$269.6 million for Mauritania and \$33.3 million for Mali. Other partners, including climate funds, will contribute to the project cost, which is estimated at \$888 million.

For information about the first grid connected solar plant in mali, see [First Grid-connected Solar Power Plant in Mali](#). Wind. Significant wind energy potential is available, though hardly used, particularly in the Sahelian

and Saharan zones, where annual average wind speed is estimated at 3 ...

**Project General Description.** The Multinational - Desert to Power Initiative - 225 kV Mauritania-Mali Power Interconnection and Related Solar Power Plants Development Project (PIEMM) is adopted by the Republic of Mali and the Islamic Republic of Mauritania in the context where the electricity sub-sectors in both countries faces significant challenges, including (i) a ...

Mali and Russia have begun construction on West Africa's largest solar power plant, designed to address severe electricity shortages. The 200-megawatt plant in Sanankoroba will span 314 hectares and is expected to significantly improve Mali's electricity supply.

The Amea Power Group has been awarded the contract for the construction and operation (for 25 years) of a 50 MW photovoltaic solar power plant in Mali. The plant will supply the populations of the Koulikoro region with electricity. The first results are expected within a year.

02/21/2020 February 21, 2020. Millions of people in Mali have no access to electricity. Torsten and Aida Schreiber want to change that. They founded Africa GreenTec to provide solar power plants ...

Just a few days after launching construction work on the Sanankoroba solar power plant, Mali's transitional government laid the foundation stone for the 100 MWp Safo solar power plant on 28 May 2024. On Tuesday 28 May 2024, Mali's President of the Transition, Assimi Goita, launched the construction of a 100 MWp solar power plant in Safo, in the Koulikoro region. This initiative ...

Updated: May 02, 2019. Albatros Energy (HFO - 90MW) Financial Close Date: 06/13/2017 Commercial Operations Date: 10/31/2018 Estimated Project Cost: \$127M Overview: Albatros is a 90 MW thermal power plant in Kayes by ...
