

Our Team. Count on the Prospect Solar Team to: Answer questions about everything from connecting to your utility's grid, to how long until you recoup your investment.; Manage your project with high level service as we design, engineer, construct and install your solar solution in-house.; Expedite your project by relying on our experience working with permitting jurisdictions ...

Besides solar irradiation parameters, Prospect gives you averaged hourly temperature and monthly values for wind, humidity, precipitation, snow, and others. See all parameters -> Ground albedo. To accurately calculate the reflected solar irradiance, you need site-specific averaged monthly albedo data. This is especially important for bifacial ...

The use of Solar Panels meets one of the Governments priority needs which is to improve energy security by slowly transitioning to renewable energy. The incorporation of Solar into the Grid on Montserrat, resulted in a 13% renewable energy input on the grid, which is 3% above the European Union's key performance indicator (KPI) of 10%.

At Solar Prospects we believe in the power of clean, renewable energy to create a more sustainable future for all. By helping our clients reduce their reliance on fossil fuels and embrace solar ...
