applied in addition to them. For more [...]

In early December 2020, three revised Solar Rating & Certification Corporation standards cleared an important hurdle, receiving the Solar Thermal Standard Consensus Committee's stamp of approval. Following final submission to US ANSI, they were made available on the SRCC website for view and purchase. The standards cover performance rating ...

Companie: Solar Rating & Certification Corporation. USA: SHC Alliance Board to Represent all Technologies. 11 March, 2016 . The Solar Heating and Cooling Alliance within the Solar Energy Industries Association (SEIA) has had an extended board since February 2016. Five industry representatives declared their candidacy and were subsequently [...]

Solar pool heaters are among the most common uses of solar thermal technology in North America. SRCC provides several program options to address the unique needs of these types of solar thermal products. OG-100 Solar Collector Certifications: All types of solar thermal collectors used in solar pool heaters can be certified under the OG-100 ...

ICC-SRCC maintains and publishes the following ANSI-approved consensus standards with the International Code Council (ICC). They form the basis of the OG-100, OG-300 and OG-400 certification programs. The current editions of the standards were approved and released in December, 2020. Online versions of the standards are available for viewing or purchasing. ...

PLEASE NOTE: All of the certification and listing reports posted this web site are valid, although some have renewal dates that have passed the case of the latter, the reports are currently undergoing renewal as required by ICC-SRCC policies and procedures. To obtain legacy reports or to inquire about the status of reports with renewal dates that have passed, contact ICC ...

ICC-SRCC launched the OG-500 certification program in 2024 to provide certifications for thermal energy storage equipment. It started with the certification of hot water storage tanks commonly used as components in solar thermal systems, commonly known as "solar tanks." These tanks may be certified to the ICC 903/SRCC 500 standard. Tanks may include the following [...]

Solar Water Heating Systems The ICC-SRCC OG-300 Solar Water Heating System Certification Program provides proof of compliance for solar water heating systems to the current ICC 901/SRCC 300 standard. This standard is widely referenced by building codes, standards and incentive programs throughout North America. U.S. Federal tax credits, EPA ENERGY ...

ICC-SRCC was created by a group of states, SEIA and the Federal Government in the 1980's to address the need for quality and performance certification for solar thermal collectors and systems. ICC-SRCC has been recognized as the preeminent organization for solar thermal certification and rating for decades.

ICC-SRCC offers listings for all major codes and standards applying to solar heating & cooling products in North America. ICC-SRCC listings make it easy for solar product manufacturers to demonstrate code compliance. The program is designed specifically for the solar industry, from the experts at ICC-SRCC who know the technology and the industry.

ICC-SRCC requires periodic inspections for the OG-100, OG-300, OG-400 and listing programs for solar thermal products. Listees are notified early each year whether an inspection will be required on a given year. New listees must undergo an inspection within 6 months of the award of the first certification or listing.

When manufacturers apply for a new ICC-SRCC certification, they provide basic information needed to get the process started. But once we get underway, we will need more detailed information about your product to confirm that it complies with standards and to generate performance ratings (if applicable).

(From left): Marisol Oropeza (Head of Marketing of the Global Solar Heating Initiative), Stephan Fischer, Group Leader for Component and System Testing at the Institute for Building Energetics, Thermotechnology and Energy Storage (IGTE) at the University of Stuttgart, and Shawn Martin, Manager of the Solar Rating and Certification Corporation ...

ICC-SRCC maintains compliance assessment marks for its accredited programs. Listees with current certifications and listings are authorized to display them on marketing materials, websites, and product labels. This webpage summarizes ICC-SRCC's marks and how they may be used. These requirements are also summarized in the Usage Guide for ICC-SRCC Marks. Certified ...

Codes and Standards References The ICC/SRCC standards for solar heating and cooling equipment are referenced in many building codes. These codes require compliance with the standards, which can be shown using SRCC's various certifications. See below for some examples and more information. This list is not exhaustive, and many individual states that use ...
